HOW TO READ THE OVERLAY

The card perimeter, guide ticks and midpoint marks are drawn digitally over each scan. The overlay is a supporting visual, and the stored card pixels are preserved.

Centering subgrade: 10. Front and back overlays document the card perimeter, midpoint marks and guide positions used for visual review.

Source pair: 9f445da6-b87b-4e1e-8d06-428836fd9aa7. Grading capture: b149cc1e-4df5-bdcb-ed47-74f477d8c95d.

UNCROPPED PLATEN / CORNER RULER AND COLOR REFERENCE

FRONT MASTER

BACK MASTER

1200 DPI / 10200 x 14039 PIXELS / EACH SIDE

The L-shaped corner ruler sits above and to the right of the card. The color reference sits farther right. Both full master images retain the platen context and all four card corners.

The grading image uses a separate 3465 x 4680 pixel region with margin. The ruler and color target remain in the full masters and reference evidence. Originals are preserved.

Capture dates: front October 23, 2026, 11:47 PM; back 11:53 PM (America/New_York). Epson Perfection V33/V330; color scans.
